Summary

Python developer with strong fundamentals and a hunger to grow. I build web applications with Flask and Django, integrate databases, and actively expand my skills in AI and cloud technologies.

What I bring:
Solid Python foundation – Flask/Django development, SQL & MongoDB integration
Problem-solving mindset – coding challenges, debugging, logical thinking
Learning agility – completed Udemy courses on AWS and AI/LLM trends, with hands-on practice
Growth-driven – eager to contribute while continuously improving

A perfect fit for teams that value:
→ Fresh perspectives and enthusiasm
→ Strong technical fundamentals
→ Collaborative, solution-focused developers
→ Investing in junior talent with high potential

Currently seeking: Entry-level Python Developer roles where I can make an immediate impact and grow alongside experienced mentors. Ready to contribute to your team's success!
